

## Dental

Are you having a tough time finding a dentist for your child? Dental services are being provided to students in the School District of Janesville. These services are provided at **no cost** to the family. Students in EC, Pre-Kindergarten, K, 1, 4, and 5 who are Medicaid eligible can receive a dental exam and a fluoride varnish. The fluoride varnish is applied three times during the school year and helps to strengthen teeth. Students in 2<sup>nd</sup> and 3<sup>rd</sup> grade can receive these same services as well as have dental sealants applied. Sealants are the best way to prevent cavities on molars. The services to 2<sup>nd</sup> and 3<sup>rd</sup> graders are open to any student. All services will be provided right at school by a licensed dental hygienist. To have your child seen, complete an enrollment form in the school office and your child will be seen the next time the hygienist is at your school. Thank you.
